Interests: Machine Learning and Data
Privacy and Security

Fun Fact: I was in the KU Esports COD
Team

EMAIL _____ engineer@ku.edu and batman@ku.edu

OFFICE HOURS _____ Friday: 11am-1.50pm

OFFICE LOCATION _____ Eaton 2027

RESOURCES

PERSONAL EXPECTATIONS

Do your own work

This class has zero tolerance policy for academic dishonesty and cheating.

Research about your errors

I am more than happy to help you, however, I would like to see you try and have some background about your errors and shortcomings.

Contribution

Our lab is going to be (hopefully) a discussion based session where I would like you to contribute to the intellectual discussion.

Show up on Time

It is very distracting when someone walks in and disrupts a train of thought.

GUIDELINES FOR THE LAB

Coding Assignment

Finish the assignment according to the directions and try to reach the result to your best ability.

Follow-up Questions

If stuck on the assignment, try to visit lab sections to get help or visit office hours.
